

## Price Sheet - Net Price Calculator

### Tier 1 - *\$3000 per year*

Our first option allows you to use our best practice Net Price Calculator. This formula is based specifically on the government provided calculation and will put you in fulfillment of the 2011 mandate.

- No customization
- No Hosting (can be added for \$500/yr)
- No backend/console reporting

### Tier 2 - *\$3500 per year + Customization Estimate*

With Tier 2, the added benefits of additional formula customization will allow you to fine tune the data you collect.

- Formula Customization estimate delivered in advance (based on \$200/hour work rate)
- Hosting included
- Optional backend console to report on submitted NPC data

### Notes

- True software customization (feature changes) are possible and billed at \$200/hr with a budget agreed upon in advance.
- Our Net Price Calculator Solution is estimated on a per case basis.
- All costs include full technical support covering bugs, training assistance, and a yearly review call.
- Extended agreements may result in additional discounts.
