

## Price Sheet - The Software as a Service Model

### Tier 1 - *\$2500 per year*

Our Tier 1 platform is perfect for any institution looking to set up a baseline Enrollment Management System.

- Up to 5 hours of Application/Integration Customization
- No Hosting (can be added for \$500/yr)
- No Ecommerce

### Tier 2 - *\$4000 per year*

With Tier 2, the added benefits of additional application customization and ecommerce will allow you to fine tune the data you collect while creating a new revenue stream.

- Up to 10 hours of Application/Integration Customization
- No Hosting (can be added for \$500/yr)
- Ecommerce (PayPal Pro gateway highly suggested\* - unique gateways may incur additional charges)

### Tier 3 - *\$5000 per year*

The Tier 3 option gives you everything you need in one package; a healthy amount of customization and hosting and ecommerce options.

- Up to 15 hours of Application/Integration Customization
- Hosting included
- Ecommerce included
- Campus Visit Request tool included

### Notes

- As a reference, additional application questions take 1 hour to program.
- True software customization (feature changes) are possible and billed at \$200/hr with a budget agreed upon in advance.
- Our Net Price Calculator Solution is estimated on a per case basis.
- All costs include full technical support covering bugs, training assistance, and a yearly review call.
- Extended agreements may result in additional discounts.
